TECHNICAL SKILLS

Programming

Java (JSP, Servlet)
Python, SQL

Web Technologies

JSP, Servlet, HTML
CSS, JavaScript

Libraries

Pandas, NumPy
Jupyter

Domains

Data Analysis
Web Apps, Automation

PROJECTS

1. Dynamic Web-Based Expense Tracker

Java, JSP, Servlet

Developed a full-stack web application using JSP and Servlet for real-time tracking of financial input data. Implemented a Graph Analysis module to visualize expenditure trends; included a Savings Plan Generator. Integrated a real-time Alert System for budget thresholds to enhance financial discipline.

2. Sales Data Dashboard

Python, Pandas, Matplotlib

Analyzed large sales datasets using Python libraries to derive key business insights and trends. Built an interactive dashboard in Jupyter Notebook to visualize KPIs like revenue growth and performance.

3. YojnaConnect – Government Scheme Discovery Platform

React, Node.js, Express.js, MySQL

Developed a full-stack web application using React, Vite, Node.js, Express.js, MySQL, HTML, CSS, and JavaScript to help users discover and access relevant government welfare schemes.

Implemented scheme search, eligibility filtering, category-based recommendations, and detailed scheme information pages through RESTful APIs and database integration.

4. Chess Engine Web App – Interactive Browser-Based Chess Platform

React, TypeScript, TanStack

Built a browser-based chess platform featuring a custom AI engine powered by Negamax search, Alpha-Beta pruning, Zobrist hashing, and transposition tables.

Developed an interactive 3D user interface using React, TypeScript, and TanStack Start, incorporating board customization, hint generation, game analytics, and responsive design for an engaging chess experience.

5. TypeRacer – Full-Stack Real-Time Web Application

React, Node.js, Socket.IO, MySQL

Built a multiplayer typing game using React, Node.js, Express, MySQL, and Socket.IO, enabling real-time race synchronization and live leaderboard updates.

Implemented secure authentication, WPM/accuracy tracking, RESTful APIs, and database-driven score management while delivering a responsive user experience.

EDUCATION

Sathyabama Institute of Science and Technology, Chennai

2023 - 2027

B.E., Computer Science and Engineering

CGPA: 8.52/10.00

Railway High School, Patna

59.4%

(12th Grade)

2023

Don Bosco Academy, Patna

87%

(10th Grade)

2021
